

My Day books are a great way for children and adults with communication difficulties to share information about their day with people at home.

They provide a way to communicate about the activities you have done, where you have been, how you felt, special things that have happened and anything needed for the next day. My Day books are a great visual support for anyone who has difficulty remembering or saying what happened in their day, and also as a way to share this information.

Return this form and any photos you would like included in the aid to necas@scopeaust.org.au.
